To Capitalists.—The advertiser has acquired, by
an article of agreement with the American Stome-Dressing
Company, (owners in fee of EAYRE'S PATENT STONEDRESSING MACHINE, the right of exclusive use of saidmachine in the City and County of New York, for the whole
unexpired life-time of the patent, (to December 4, 1833) It
is claimed by the owners that its capacity is unsurpassed by
any other machine in existence, for preparing stone for buildings, canal locks, aqueducts and bridges. They challenge the
world to produce its equal for expedition and beauty of finish.
It is to stone what Woodworth's Flaning Machine is to
hoards, or the saw mill to the rough log. It dresses brown
stone, marble, himestone and granite with equal beauty and
ease—particularly the brown stone from the Paterson Ledge.
The stone on the carriage is fed fast or slow, at pleasure.
With a five-horse power applied to the machine, the stone
will move forward from two to three feet per minute, and
take off from one to two inches of stone, if required to
bring it to an even surface. The forward motion of the chisel
is one-seventieth of an inch, each blow of the revolving ham
mer. The gang has 24 chisels, which strike 25,000 blows per
minute, without apparently dulling the chisels in the least
degree.

The object of the advertiser is to form a Joint Stock Com-

mer. The gang has 14 cmess, which strike 2, and show perminute, without apparently dulling the chiecis in the least degree.

The object of the advertiser is to form a Joint Stock Company with as little delay as possible, that shall put into operation six machines, at least, to dress stone at any required width or thickness. Persons feeling a desire to engage in a mechanical or manufacturing business, are invited to call at the Company's office, where any information will be given with pleasure, and investigate for themselves, and where a model can be seen. Or if they will take the trouble to go to Rosch's Saw-Mill, No. 138 Bankett, they can see a full-sized machine in operation from 9 to 12 A. M. and 2 to 5 P. M. The Bleecker-st. or Kipp & Brown stages will land pessengers within two minutes walk of the mashine, where all who feel interested in machinery, or desire to become interested in this machine, are invited to call and examine its operations. For further particulars apply at the office of the American Stone Dressing Company, No. 62 William-st., room No. 3.
